Additional Information

Projects

• Macros Calculator - Designed and developed a nutrition tracking platform that allows users to add, edit, and remove macronutrient entries throughout the day. Built with React and Node.js, using Bootstrap & Styled Components for styling, a Restful API, and firebase for backend services.

• Movies Website - Implemented a movie discovery website featuring real-time movie data, trending content, and user interest tracking. Built with Vue.js, Bootstrap, leveraging the Vueper Slides package and The Movie Database (TMDb) Api.

• Art Portfolio Website - A art portfolio website to demonstrate some of the client’s artwork, we choose a template design the client liked and then used it as the basis to build more functionality and styles. Built with Bootstrap, BEM, Javascript, and Sass.
